TEMESGEN NEGA

Full-Stack Software Engineer | React · Node.js · TypeScript · PostgreSQL

Addis Ababa, Ethiopia | +251 963 699 817 | temesgennega75@gmail.com

GitHub: github.com/tteme | LinkedIn: linkedin.com/in/temesgen-nega | Available for US time zone overlap

PROFESSIONAL SUMMARY

Full-stack software engineer with 3+ years of professional and independent experience building web applications, REST APIs, and database-driven business systems with React, Node.js, TypeScript, and SQL databases. Delivered an internal help desk platform used by 300+ staff across 10+ departments, plus end-to-end projects built independently. BSc in Computer Science. Quick to learn new tools, comfortable working independently in remote settings, and available during US business hours.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, SQL
Frontend	React.js, Redux Toolkit, HTML, CSS
Backend	Node.js, Express.js, REST APIs, JWT authentication
Databases	PostgreSQL, MySQL, Supabase, Prisma ORM
Tools	Git, GitHub

PROFESSIONAL EXPERIENCE

Software Developer | Digaf Microfinance *Dec 2024 – Present*

- Built and maintain an internal Help Desk Management System (React, Node.js, Express, Prisma) used by 300+ staff across 10+ departments.
- Implemented role-based access control, request tracking, notifications, SLA monitoring, and cross-department escalation.
- Designed database models and REST APIs and integrated them with the React frontend.
- Developed reporting features for management and supported day-to-day internal operational workflows.

Independent Full-Stack Developer | Personal Projects *Feb 2023 – Dec 2024*

- Designed and built Enat Smart Gate and Enat Healthcare Solution end to end: requirements, database design, API development, and frontend (see Projects).

Software Engineer | DAN Energy Ethiopia *Sept 2022 – Feb 2023*

- Developed all pages of the company website using React and JavaScript, and deployed it on the company's server.

Software Engineer Intern | ICT Incubation Center *July 2020 – Nov 2020*

- Built an inventory management website as part of a software development internship.

SELECTED PROJECTS

Enat Smart Gate | *Node.js, Express.js, MySQL, JWT*

- Backend/API system for managing residents, vehicles, user roles, compound gate access, and payment validation.

Enat Healthcare Solution (In Progress) | *React, Redux Toolkit, Node.js, Express.js, MySQL*

- Clinic management application with authentication, profiles, departments, doctors, appointments, and dashboards.

Barber Shop Management Application (In Progress) | *Node.js, TypeScript, grammY, Supabase*

- Barber shop application with Telegram bot integration and a Supabase-backed foundation.

EDUCATION

BSc in Computer Science | Bahir Dar University *Sept 2016 – Feb 2021*
